ACADEMIC FORMATION

1

Classroom

STUDENT DEBATES ON BIBLICAL AND CONTEMPORARY ISSUES

Students participated in debates on biblical teachings and contemporary issues under the guidance of Mr. Renison Kalyani, Professor of Old Testament. The discussions encouraged students to examine different perspectives, develop critical thinking, and articulate their views in the light of Scripture. Such activities help students connect biblical understanding with contemporary challenges and prepare them to communicate their convictions thoughtfully.

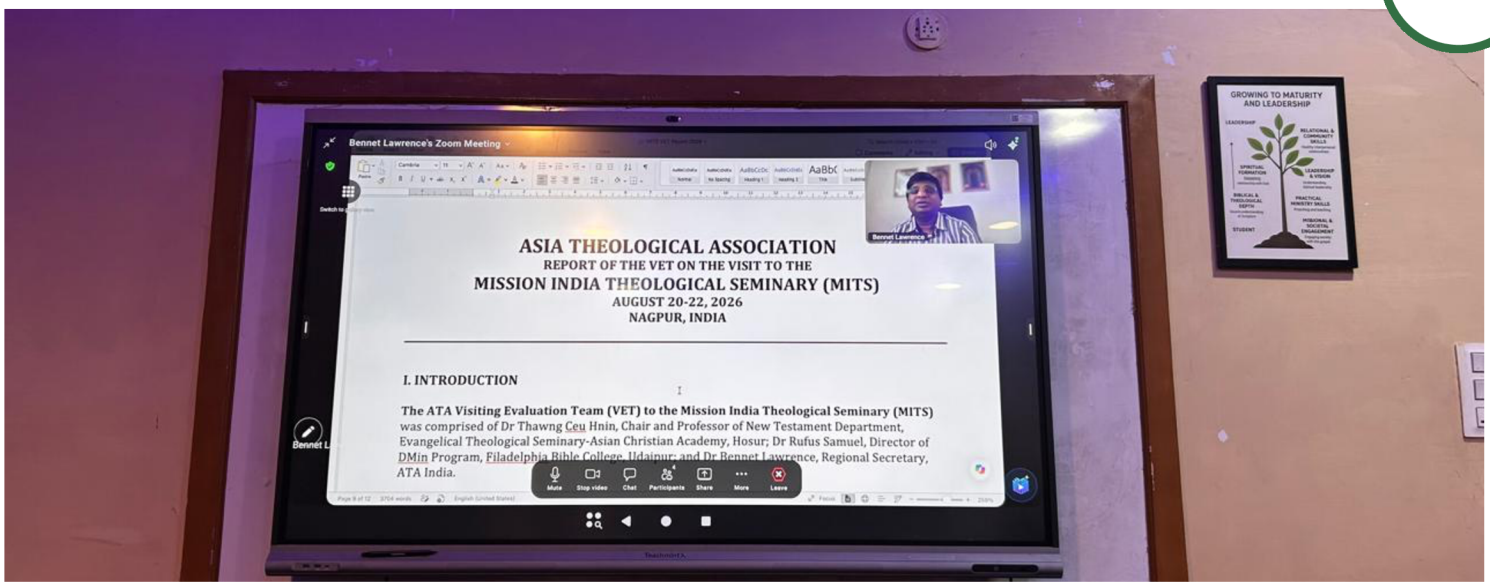

Quiz Competition

A quiz competition was conducted on book of Acts to encourage students to strengthen their biblical knowledge and recall important lessons from their studies. The activity promoted healthy competition, teamwork, and enthusiasm for learning while providing an engaging way to reinforce classroom knowledge.

ATA VET Report Presented Online

The ATA VET report was presented online, marking an important step in the institutional evaluation and accreditation process of MITS. The presentation provided an opportunity to review the evaluation findings and consider the recommendations for institutional development and academic improvement. We remain committed to strengthening our educational standards and fulfilling our mission of preparing men and women for effective Christian ministry.

Moodle Usage Training

A Harizon, Australia/USA Moodle usage training session was conducted to familiarize participants with the use of the Moodle learning management system for educational purposes. The training aimed to strengthen digital learning skills and support the effective use of online academic resources and course materials. This initiative reflects MITS's commitment to enhancing teaching and learning through appropriate educational technology.

SPIRITUAL FORMATION

SEPTEMBER 2026

Chapel Services

Regular chapel services continued to be an important part of campus life. Students, faculty, and staff gathered for worship, prayer, and the teaching of God's Word. These gatherings encouraged the MITS community to remain rooted in Christ and strengthened in its commitment to faithful Christian living and ministry.

Growing in Christ Through Prayer, Mentorship, and Discipleship

Hostel Devotions and Personal Quiet Time

Students continued their hostel devotions and personal quiet times through Bible reading, prayer, and meditation. These spiritual disciplines encourage students to develop a consistent walk with God and build habits essential for spiritual maturity and faithful ministry.

At MITS, spiritual formation remains an essential part of theological education. Through worship, mentoring, prayer, and personal devotion, students are encouraged to develop Christ-like character and prepare for faithful service in the Church and society.

Mentorship Groups

Mentorship groups continued to provide students with opportunities for spiritual guidance, personal encouragement, and character development. Through regular interaction with their faculty mentors, students are encouraged to grow in their relationship with Christ, reflect on their personal lives, and prepare themselves for future ministry responsibilities.

SUNDAY SCHOOL INAUGURATION

The inauguration of the Sunday School programme marked an important step in strengthening children's ministry. The programme aims to help children learn God's Word, grow in their faith, and develop a strong biblical foundation from an early age. Through regular teaching and guidance, this ministry seeks to serve children and families in the surrounding community.

MINISTERIAL FORMATION

SEP 2026

OUTREACH

Senior students continued participating in weekend evangelistic outreach in nearby villages, including Khadgaon, Lava, Durgdamna, Saoli, and Chicholi. Through house visits, personal evangelism, prayer, Bible teaching, and fellowship with local churches, students gained practical ministry experience while sharing the love and message of Christ. These opportunities help them apply classroom learning in real ministry settings and prepare for faithful pastoral and missionary service.

COMMUNITY, CHARACTER, AND CAMPUS LIFE

TEACHERS' DAY CELEBRATION 5 SEPTEMBER

MITS observed Teachers' Day to honour and appreciate the faculty members for their dedication to theological education and student formation. The occasion recognized the important role teachers play in teaching God's Word, mentoring students, and preparing future servant leaders for Christian ministry. It was an opportunity for the MITS community to express gratitude for the commitment and service of its faculty members.

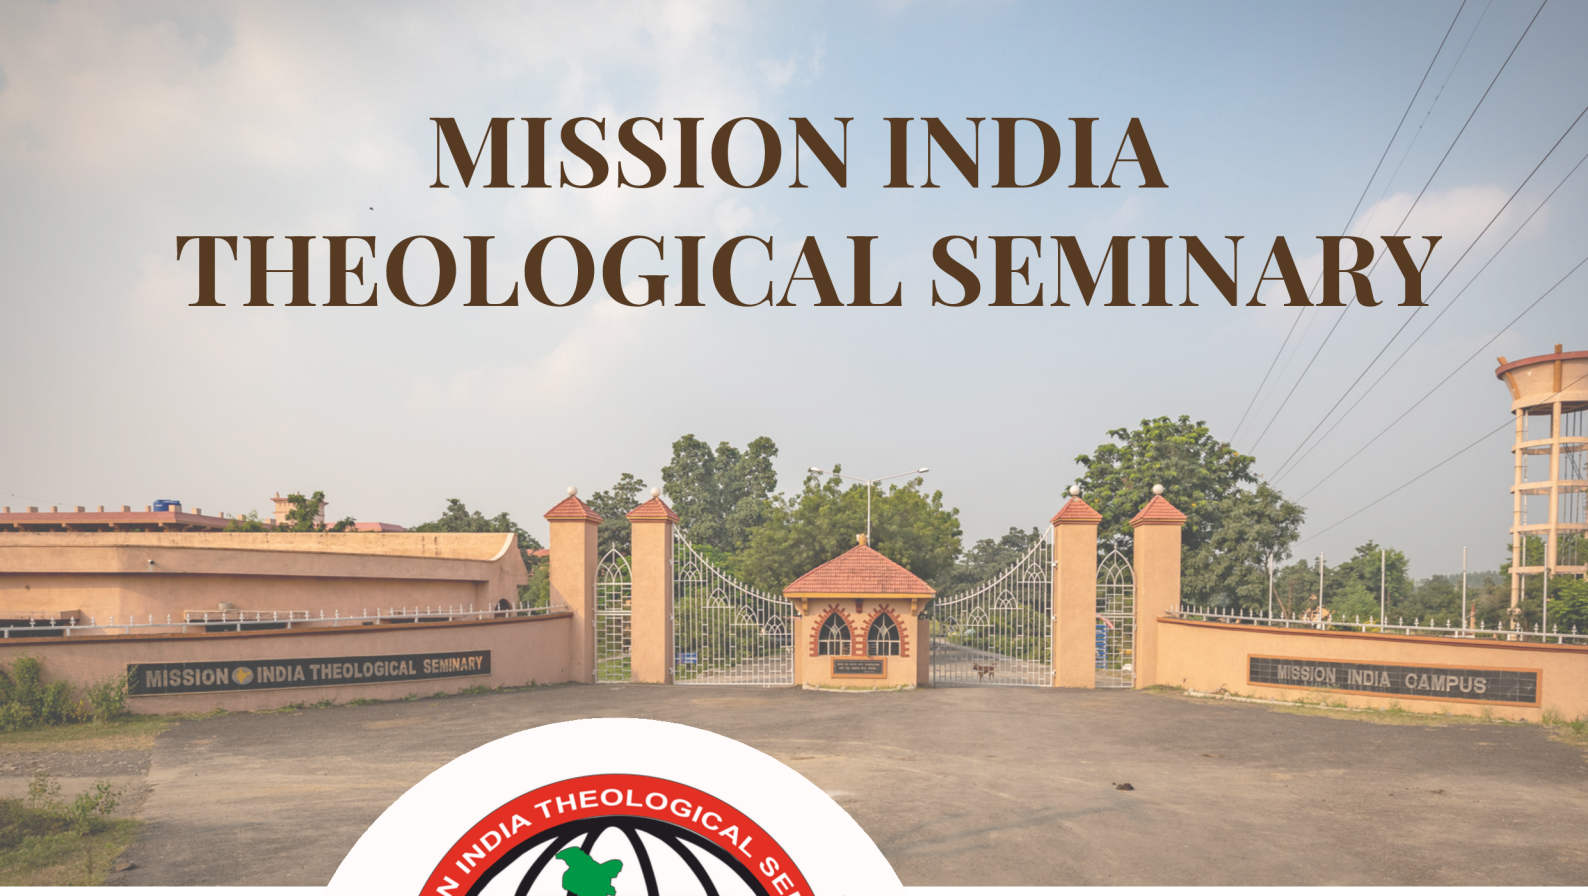

SPORTS

Sports activities provided students with opportunities to develop teamwork, discipline, sportsmanship, and healthy competition. Through participation in games and recreational activities, students enjoyed fellowship beyond the classroom and strengthened relationships within the MITS community.
